there's **mothercare** in everything we do

mothercare **premature** baby clothes

Mothercare has worked with midwives within neonatal units and new parents of premature babies to develop this new range of premature baby clothes. The range will help make dressing easy and at the same time still allowing access for special care, without having to keep dressing and undressing your baby. One in 8 babies born in the UK spends at least a few days in a neonatal unit, many of these baby's have been born prematurely – before 37 weeks. Our range of clothing caters for babies with a low birth weight from 3lbs.

the premature range

- sleepsuits
- bodysuits
- 7 piece gift pack; vests, nappy wraps, hat, scratch mitts and blanket
- scratch mitts and hat
- all available in pink or blue

We have used super soft fabric, offering extra comfort next to your baby's skin. For the fastenings we have used no poppers in the range, instead we have used super soft hook and loop fastenings to minimise irritation. The clothes can also be washed up to 95 degrees and are tumble dry friendly.

availability

- available in mothercare stores
- online www.mothercare.com.au
- or phone order **1300 217 700**
